

Soheil Abadi

Front-End Developer

soheil.abadi1375@gmail.com | linkedin.com/in/soheil-abadi | soheil-abadi.ir |

PROFESSIONAL SUMMARY

Detail-oriented Front-End Developer with over 5 years of experience architecting and developing scalable, interactive web applications and Progressive Web Apps (PWAs). Expert in React, Next.js (App Router, SSR), TypeScript, and advanced state management. Proven track record of delivering end-to-end solutions, implementing complex dual-audience architectures. Passionate about clean, maintainable code, CI/CD, and improving core web vitals and overall site performance.

TECHNICAL SKILLS

Languages & Core: JavaScript, TypeScript

Frameworks & Libraries: React Next.js Redux Toolkit, Zustand, TanStack Query, React Hook Form, Zod

3D & Graphics: Three.js, React Three Fiber, WebGL

UI & Styling: Tailwind CSS, Material-UI shadcn/ui, Ant Design, Bootstrap

Backend & Database: PostgreSQL, MySQL, Prisma ORM, RESTful APIs, framer motion, Next.js API Routes

DevOps & Tools: Docker, Docker Compose, Git, Vite, Webpack, Linux Environments, CI/CD

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Hafez Insurance Co. *(Sep 2026 – Present | Tehran, Iran)*

- Led development for the Bale Mini App, enabling in-app insurance purchases (third-party, body, fire, ...) optimizing mobile WebView environments.
- Architected a dual-audience SPA (Project Nezam) for Engineering Organization members utilizing Next.js App Router, React 19, and TypeScript.
- Implemented resilient API integrations with TanStack Query and Zustand, establishing secure token refresh flows and API proxy layers.
- Designed a production-grade, RTL-first internal reinsurance admin panel using Redux Toolkit, Material UI, and Tailwind CSS, deployed via Docker.

Freelance Frontend Developer | Pars Badi (پارس بادی) *(May 2026 – Jun 2026 | Tehran, Iran)*

- Designed and developed a bilingual corporate marketing website and headless CMS for an industrial machinery manufacturer.
- Architected the full-stack solution utilizing Next.js 15, PostgreSQL, and Prisma ORM.

- Configured content models, bilingual routing (RTL/LTR), interactive project maps, and containerized the application via Docker.

Senior Frontend Developer | Bimtec *(Apr 2025 – Present | Tehran, Iran)*

- Built a fully digital insurance platform with a custom role-based admin panel for claims inspection, zooming, and media annotation.
- Integrated an advanced browser-based vehicle inspection tool incorporating a 3D car model viewer utilizing Three.js and React Three Fiber.
- Optimized application performance to securely handle and render large image and video files efficiently across devices.

React & Next.js Developer | Metaponic *(Jun 2024 – Apr 2025 | Tehran, Iran)*

- Developed the core Metaponic PWA leveraging Vite, Next.js, and Tailwind CSS, focusing on a highly scalable IoT control architecture.
- Engineered interactive real-time dashboards utilizing Redux, Chart.js, and Leaflet maps to visualize live sensor data and manage alarms.
- Built a multilingual e-commerce platform with automated geolocation-based language switching, SSR optimization, and comprehensive admin controls.

React Developer | Kaveh Glass Industrial Group *(Dec 2022 – Mar 2024 | Tehran, Iran)*

- Developed complex enterprise dashboards for factory furnace monitoring and anti-theft supply chain tracking.
- Engineered an 8-step workflow UI (manufacturing, inventory, shipping) utilizing React, Redux Toolkit, and Material-UI.
- Created robust CRUD interfaces mapped to user roles for seamless factory operations management.

Frontend Developer | Alobizness *(Jan 2021 – Oct 2022 | Tehran, Iran)*

- Implemented the AloBusiness consulting platform utilizing React and modern JavaScript.
- Developed the EximHub web application utilizing WordPress and tailored frontend assets.
- Authored jQuery scripts for operational call center management systems.
